God's Love in Action

ABOUT US >>>

Caritas Singapore is the official social and community arm of the Catholic Church in Singapore and a member of Caritas Internationalis.

We are the umbrella body for 26 Catholic charities and organisations whose work has touched the lives of many regardless of race or religion.

FORMATION PROGRAMMES

Caritas Singapore offers Formation programmes that promote awareness of the Catholic Social Teaching (CST) and its application in daily living as Christ's disciples.

The social teaching of the Church is a call to each of us to reach out to our fellow brothers and sisters. It is about God's call to us to "Love one another as I have loved you".

Through the Church's social teaching, we can learn not just about how we are called to serve others, but how we are called to act in relation to our work, the environment, our families, and the various situations we are faced with in our daily lives.

CHARITIES WEEK

Charities Week is the annual Archdiocesan fundraising campaign held during the season of Lent which provides the much-needed funding for the Caritas Singapore family to continue our work in the community.

CARITAS SINGAPORE
—AGAPE VILLAGE

Established in 2015 by Archbishop William Goh, Caritas Singapore-Agape Village (AV) is a one-stop hub with services integrated to meet the multiple needs of an individual or family, providing holistic and coordinated care.

AV seeks to partner and empower the community, especially the poor, the marginalised, and people limited by difficult circumstances regardless of race or religion.

And so that was how Agape came about.

With the co-location of 13 of our member organisations at AV, beneficiaries and clients can have access to services that include skills training, financial support, counselling, respite care for caregivers, and a day activity centre for adults with special needs.

In areas where more support is needed, caseworkers will collaborate with government bodies, community partners, social service agencies and non-governmental organisations to complete the care cycle.
